STRESS-FREE VISA AND FINANCIAL PROCESS

We know that understanding the process of acquiring the right amount of funds from the right bank, or applying for a visa and cracking the interviews can be highly stressful.

But we are determined to simplify the process for you with our customised advice for visa and funding.

GET ADVICE ON ALL OF THESE QUESTIONS AND MORE WITH OUR GROUP COUNSELLING SESSIONS

- ◆ Which bank do I choose for an education loan?
- ◆ How much funding will I require for my entire study abroad process?
- ◆ What documents do I need to apply for the visa?
- ◆ What will the interview round for the visa be like?

DON'T JUST TAKE OUR WORD FOR IT

Over just 2 years, Career First has successfully placed over 100 aspirants like you, all across the globe! Take a look at why they recommend us.

ANIKET KELKAR

(California State University - Fullerton,
MS in Electrical Engineering, Fall 2022)

"Many of my friends have taken similar services from other organisations. But Career First is the best. Hope this venture helps many people like me in years to come. The dedication of Career First counsellors is commendable. I haven't seen any other service provider pick up calls late at night and text me to inform me about the visa slots early the next morning."

ISHA BHONGE

(University of Minnesota - Twin Cities,
MS in Electrical & Computer Engineering,
Fall 2021)

"Sir provides excellent personalized consulting services. He is next parent who guided me throughout entire MS admission procedure, as my mother was completely unaware about all procedures. He helps beyond his services offered because no consultancy would help & guide in difficulties I faced during my visa interview process, which really made us proud of our choice for career first consultancy services."

HRUSHABHSINGH CHAUHAN

(North Carolina State University -
MS in Computer Science, Fall 2021)

"Throughout my enrollment in Career First Consultancy, I have had nothing but good experiences with sir. He has a thorough knowledge and he also has reasons for everything he says or does. Overall, a very genuine & professional institute and I'd definitely recommend it to everyone so that they can get value for their money and be assured of correct information."

ANJALI MASUR

(University of Southern California -
MS in Computer Science, Fall 2022)

"My experience with the entire admission process so far has been very smooth and relaxing thanks to sir. I really appreciate the quick responses he gave to all my minute questions and I was able to connect him easily, without hesitation, which helped me a lot. Would definitely recommend the services to my friends! "

TANMAY KOTHALE

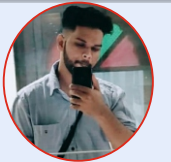

(University of Colorado -
Boulder, MS in Computer Engineering
(Embedded Systems), Fall 2021)

"I feel happy that I chose career first consultancy. The services were customized according to my needs. Moreover, sir was always available in time of need, even during non working hours. This made my problem solving much easier & efficient."

SATADRU DEBNATH

(Northeastern University -
MS in Information Systems, Fall 2022)

"Sir was available whenever needed, even smallest of doubts was cleared over a phone call. Sir made sure our doubts were cleared with a clear cut straightforward answer. Overall very satisfied going with Career First Consultancy ! "

MRUNMAYEE LELE

(Purdue University -
MS in User Experience Designing
(Human - Computer Interaction, Fall 2022)

“Career first consultancy helped me in this entire process since the day one, from background & general information till university selection. I feel, I got the right guidance which helped me in getting 5 admits.”

SAKSHI PANDIRKAR

(PACE University - New York,
MS in Computer Science, Fall 2022)

“Even the slightest doubt regarding finance was cleared. Sir has helped me with framing the visa responses. Also, the visa mocks taken were extremely helpful to build up confidence to face the visa interview. Me & my parents, both are extremely satisfied with Career First Consultancy. I have already recommended Career First to all my friends planning for study abroad.”

ISHIKA MISAL

(Northeastern University -
MS in Information Systems, Fall 2022)

“Consultancy service was very helpful and sir guided us with every aspect of the process. Also the University list provided according to the course were useful and provided insights on various on factors like location, opportunities etc. Moreover for filling Visa form and appointment booking was made easy by Career First Consultancy services. Overall great experience !! ”

DIVYA KHADPE

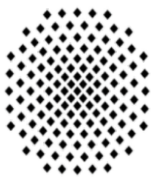

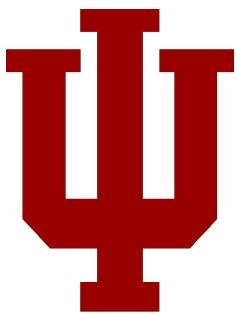

(University of Darmstadt -
MS in Electrical Engineering & Information
Technology, Winter 2022)

“I had a great experience with Career first right from the start of the course. Sir explained the steps in detail, including the essential details of the process. The drafting of the letter of recommendation and motivation was spot on. The design was modified exactly according to the input I gave. From choosing a university to collecting documents for my visa application, team helped me every step of the way & their responses to my questions and problems were always prompt. My dream finally came true and they were a huge part of this journey by helping me make my dream come true. I really appreciate everyone's patience and support throughout the process. ”

LETTER TO THE STUDENTS

Dear Students,

Education abroad is not just a dream, but a life changing event. With this step you will be moving out of the protective shell of your family and into the new world filled with possibilities. Just like any journey, you will need a guide who knows the hurdles ahead and has expertise in navigating through this tortuous path. Before you consider studying abroad, it's important to understand the factors that determine which country, course or university you choose. Academic history is given a lot of importance in these applications, so make sure that you are pursuing your undergraduate course with all the determination you have!

Of course, a good score in GRE, TOEFL or IELTS will always give you access to a top-ranking university, and will help you in getting scholarships too! So don't forget to prepare well for these competitive exams. It's not easy to earn or gather funds for your Masters. And any help goes a long way. So do consider working part-time when you are studying abroad and leave no stone unturned when it comes to seeking projects, internships and any work opportunity! (Especially if you get one under a university faculty member) The key to getting admission is to apply to a well-balanced list of universities according to the area of your interest. With proper planning, you can maximise your acceptance rate and save a lot of money too. We know that the process of studying abroad can be stressful, for students and parents too. But with clear communication, all of us at Career First will always be ready to help you to achieve your targets and resolve your doubts. Lastly, we wish you the very best for your journey. Have fun, study hard and work hard!

THANK YOU !
